

Advokatfirma Kluge DA Press Release

Advokatfirma Kluge DA Recommits to Open Text eDOCS DM

Oslo, Norway- May 9th 2011- Advokatfirma Kluge DA announced today its recommitment to Open Text's eDOCS DM is complete. "Having experienced large growth over the past 10 years it was important for our firm to conduct a complete review of our major solution providers to ensure they could continue to grow and meet our future needs." Said Egil Olsen, Head of Administration. "We performed in depth reviews of our current document management solution, OpenText eDOCS DM, against four major competitors. In each case eDOCS DM emerged as the clear winner for Kluge. eDOCS DM stood out not only for the level investment OpenText is making in eDOCS but more importantly for the agility eDOCS solutions offer our lawyers in this competitive global marketplace. eDOCS DM compared very well with all the other suppliers in its ease of use and ability to tailor our content management experience to meet the individual needs of key practice groups. Also OpenText has a comprehensive set of forward looking solutions in key areas of growth for Kluge: Client Marketing Tools, Mobility, Enterprise Social Networking, Process Automation and Archival Solutions. Lastly and most importantly, we found that the global eDOCS community was vibrant and rich with many successful implementations and deep partner expertise. Once our firm made the decision to recommit to eDOCS DM, we selected long time strategic OpenText Partner, Contesto AS to help us. We could not be happier with Contesto's level of domain knowledge, technical expertise and professionalism.
